Extension Annual Conference

Jennifer Lindimore, Office Associate, Morgan County was awarded the 2018 Extension Support Staff Excellence Award. Jennifer is someone who is an outstanding employee of Ohio State University Extension and has been the welcoming face of her county extension office for 30 years. She embodies the qualities of excellence, cooperation, positive attitude, service, professional development and creative problem solving which is the perfect description of an exceptional candidate for the CES Support Staff Excellence Award.

She often leads her office personnel and clientele to a better understanding of changes within the organization. She is an excellent teacher and trainer of all things Extension. She maintains a current and complete database of local, regional and Extension resources, which serves as a great aid for her coworkers and many clientele. She is the glue that holds the office together.

She has served as a longtime member of Chi Epsilon Sigma and served in many leadership roles. She has participated and actively seeks out opportunities to expand her knowledge throughout her career and graciously shares her knowledge with others. People know her for her excellent work ethic and as a team player who has great loyalty to Extension and the University. She works tirelessly with all she serves (the general public, her co-workers in Morgan County and peers within OSU Extension). She is positive, hardworking and extremely helpful to all those with whom she interacts. Her professionalism defines "support" staff as she continually works to sustain and improve the program with her help, encouragement, fiscal care and attention to detail.

Jennifer is an example of positive attitude, commitment to OSU Extension, and a commitment to serving the citizens of Morgan County.
